Let's Learn Chinese

About Me

About Me

Hi, I'm Nikolai Sazonov, an 18-year-old Mathematics and Computer Science major at Hobart College (Class of 2028).

I'm also learning Chinese to challenge myself in a completely different field.

Why I Built This App

I wrote this app for many reasons, firstly I kind of suck at the Chinese Language, but I wanted to skip level 2 because I found level 1 too slow.

I'd rather cut to the hard part. Making an app is a good excuse :)

Also, I have a lot of experience with backend developing, I made Terraria mods with C#, and do most of my coding using C# dotNet framework (VS)

Building an iOS app is a valuable addition to my portfolio as it showcases my skills in Swift, Xcode, and app design

I am learning Chinese now and I will be learning more about Chinese culture and history.
